

Location request messages | Developer Documentation

Location request messages

Updated: Nov 3, 2025

Location request messages display **body text** and a **send location button**. When a WhatsApp user taps the button, a location sharing screen appears which the user can then use to share their location.

Once the user shares their location, a **messages** webhook is triggered, containing the user's location details.

Request parameters

Placeholder	Description	Example Value
-------------	-------------	---------------

<p><ACCESS_TOKEN> String</p>	<p>Required. System token or business token.</p>	<pre> EAAAN6tcBzAUB0ZC82CW7iR2Lia ZBwUHS4Y7FDtQxRUPy1PHZC1DGZ BZCgWdrTisgMjpFKiZai1FBBQNO 2IqZBAzdZAA16lmUs0XgRcCf6z1 LLxQCgLXDEpg80d41UZBt1FKJZC qJFcTYXJvSMeHLv0dZwFyZBrV9Z PHZASSqxZBUZASyFdzjiy2A1si ppEsF4DVV5W2I1k0Sr2LrMLuYoN MYBy8xQczz0KDOMccqHEZD </pre>
<p><API_VERSION> String</p>	<p>Optional. Graph API version.</p>	<p>v25.0</p>
<p><BODY_TEXT> String</p>	<p>Required. Message body text. Supports URLs. Maximum 1024 characters.</p>	<p>Let's start with your pickup. You can either manually *enter an address* or *share your current location*.</p>
<p><WHATSAPP_BUSINESS_PHONE_NUMBER_ID> String</p>	<p>Required. WhatsApp business phone number ID.</p>	<p>106540352242922</p>
<p><WHATSAPP_USER_PHONE_NUMBER> String</p>	<p>Required. WhatsApp user phone number.</p>	<p>+16505551234</p>

Webhook syntax

When a WhatsApp user shares their location in response to your message, a **messages** webhook is triggered containing the user's location details.

Webhook parameters

Placeholder	Description	Example Value
