How to improve your Template

When preparing a mailing campaign, one of the most common questions is: *How can I create an effective newsletter without risking being blocked?* In this article, we'll share practical recommendations to help you achieve that.

Text Length

Meta recommends keeping marketing templates under 500 characters to maximize customer engagement. The optimal range is 300–500 characters. In practice, this means keeping your message concise and focused: present the essence of your offer in just a few sentences instead of overwhelming readers with a wall of text.

Personalization with Variables

Personalization significantly improves the effectiveness of your campaigns. Using variables such as the customer's name is a simple but powerful way to make your messages feel more personal. After all, everyone appreciates being addressed directly.

Use of Media

Adding visuals such as bright images or short videos is a proven way to increase click-through rates. High-quality media design not only attracts attention but also serves as an important driver of conversions.

Action Buttons

Quick-reply buttons are an excellent tool for faster customer interaction. A single click is always easier than typing a response.

In addition, action buttons can redirect users directly to your website or phone number, making the communication process seamless and convenient.

Unsubscribe Button

Meta recommends including an “Unsubscribe” button in mass-mailing templates, and we strongly support this practice. It’s much better to give customers an easy, native way to opt out than to risk complaints or negative feedback.

Conclusion

If you want your newsletter to deliver high engagement and strong conversion rates, make sure your template includes all of the elements listed above: concise copy, personalization, engaging visuals, action buttons, and an unsubscribe option.
